

How to Create a FarmMatch Account and Place an Order (7 Steps)

(help? - support@farmmatch.com)

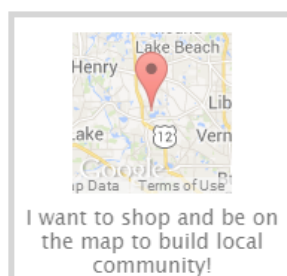

1 - Go to: www.farmmatch.com and click 'Put Yourself on the Map'.

2 – Select 'Consumer'

3 – Decide whether you want to actually be on the map and build community in your area, or remain totally private and just buy food. If you do select to be on the map you will fill out a food profile. Please make sure to take your time with it as FarmMatch will only show you sellers who sell the food that you want to buy.

4 - Go to www.farmmatch.com/heritagevalleynj and click any green link that says "Shop Store Now!"

5 – You can now start adding items to your cart. Scroll downward to see all products. After you are finished shopping click the blue “continue” button.

9 – Select unlimited ordering for \$3.95/month, or \$2.95 per order (see last page of this pdf document for explanation of the FarmMatch system).

FarmMatch

Go Premium

\$3.95/month unlimited ordering
All subscriptions billed and renewed until canceled

[Select](#)

No Thanks, ...I'll take the \$2.95 per order option

[why am I being charged this fee?](#)

[Select](#)

- 10 – Enter:
- (1-4) credit card, debit card or check card info
 - (5) phone number
 - (6) (optional) leave a comment with your order
 - (7) confirm your pickup location
 - (8) then click purchase.

After you click purchase, wait for the order confirmation page, and check your email inbox to ensure you get an order confirmation email. If you do not receive an email confirmation within 60 seconds, then immediately contact support@farmmatch.com. After your order is electronically processed you will receive a payment receipt email.

Explanation of FarmMatch System

Remarkable software is often too expensive and not affordable for most small farmers who sell direct. FarmMatch is a buyer initiative website whose mission lifts and supports the local food movement as a whole. Instead of making farmers pay large licensing fees, or a graduated fee with customer growth, or commissions on sales, we instead ask the customers to engage in a relationship with their farmer gaining access to top notch software!

These small, affordable fees fund FarmMatch's order management system, allowing every small farmer free access to the tech support, ongoing development and professional organizational tools they need to successfully provide you with super healthy food! This model reduces food costs by lowering the technology burden on the farmer. Together, the small contributions of buyers everywhere add up to an enormous benefit for everyone involved!

Support *your* small farmer, support *other* small farmers, support an *entire* movement, and do it affordably, FarmMatch!
